

COLOR AVAILABLE ABOVE ALL ELSE

## Home sweet home.

It's the place where you want to feel the most comfortable. Safe. Protected. But no matter how much you love your house, it seems the work is never completely done. And if purchasing a new roof is on your to-do list, it may seem like a daunting task.

But you don't have to worry about it anymore. We're here to help.

You can feel confident about choosing our roofing products—Owens Corning has been a recognized leader in the building materials industry for over 65 years. We're known for making homes more comfortable, beautiful and durable. And it's likely you've invited our mascot, The Pink Panther,<sup>™</sup> into your home already—our building products and famous PINK Insulation have been used in millions of homes across the country.

Owens Corning and your contractor can make this a positive experience—an opportunity, really. This is your chance to choose a roof that not only has outstanding performance, but also has exceptional beauty. One that can transform the look of your entire home. So for years to come, you'll feel great every time you pull in the driveway.

Safe. Protected. Home.

Duration® Premium Onyx Black<sup>1</sup>

ROOFING SYSTEM

## Your peak performance system.

It takes more than just shingles to create a high-performance roof. It requires a system of products working together. The Owens Corning Roofing System is a lineup of key products that can help provide maximum durability for your roof. And the most protection for your home.

- a VentSure® Ventilation Products.** Help protect your roof from premature failure by helping remove heat and moisture from the attic.
- b Hip & Ridge Shingles.** Help protect the ridge vent and add an attractive, finished look to your roof's hips and ridges.
- c Owens Corning Shingles.** Add durable beauty to your home. Shingles are the first line of defense against the elements.
- d Owens Corning Felt Underlayment Products.** Add an extra layer of protection between the shingles and the roof deck to help prevent damage from wind-driven rain.
- e WeatherLock® Self-Sealing Ice & Water Barrier Products.** Help guard vulnerable areas where water can do the most damage to a roof: eaves, valleys, dormers and skylights.
- f Owens Corning Starter Shingle Products.** The first step in the proper installation of shingles.
- g Undereave Ventilation Products.** Help prevent moisture buildup in the attic by working with ridge vents to keep air moving.

| ASTM D 3018, Type 1       | CSA 123.5 <sup>†</sup> |

\* 130-MPH wind resistance only applies to Duration Premium shingles. 110-MPH wind resistance only applies to Duration shingles. See actual warranty for complete details, limitations and requirements.

\*\* Color blends is a term that describes the intensity and amount of colored granules on the shingle, which can be more visible over the entire roof deck than in a small photographic swatch.

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.

‡ Tru-Bond is a proprietary premium weathering-grade asphalt sealant that is blended by Owens Corning.

† Applicable in Medina and Minneapolis service areas only.

§ 50-Year Limited Warranty on commercial projects.

SureNail Technology Patents Pending.

Duration® Series shingles with SureNail® Technology: A technological breakthrough in roofing.

Compare the shadowing and texture choices we offer in the Duration® Series shingle line. Whichever *Duration* shingle option you select for your home, you'll rest easy knowing that your new shingles come with our SureNail® Technology built right in. This product breakthrough offers you:

**Supersealing Action**

Our Tru-Bond® sealant grips tightly to the nailing strip on the shingle below for greater bonding strength. *Duration* Premium shingles with *SureNail* Technology are rated for 130-MPH winds, and *Duration* shingles with *SureNail* Technology are rated for up to 110-MPH winds.

**SureNail® Wider Nailing Area**

New, wider nailing area allows for an improved and consistent installation.

**Extra Adhesive Power**

Specially formulated, extra-wide adhesive bands help keep shingle layers laminated together in virtually all weather conditions.
